PENTA BY AURALIS

Auralis is the first integrated industrial hub in the lighting field.

Auralis is an all-Italian reality that satisfies all kinds of lighting needs, whether it's indoor or outdoor technical solutions, residential and contract projects, contemporary design collections or just great classics. A unique, vertical and comprehensive group of excellence which defines a new era in the lighting sector through a strong drive for technological innovation, the pursuit for beauty, and a clear mission aimed at promoting the culture of light as a tool to improve the quality of people's lives.

PENTA

CASTALDI

ARREDOLUCE

The constant pursuit of quality and attention to detail have made Penta a company with contemporary and refined design. Throughout its history, it has been able to transform the visions of the most renowned designers into unique objects, where form and functionality blend in a harmonious balance. Today, by entrusting itself to new talents, the company firmly retains its own identity.

Innovation, steeped in tradition, unveils new linguistic horizons, uncharted pathways to explore, and dreams waiting to be realized.

Our vision is set on elegant design seamlessly blending with modern lifestyles.

Our philosophy stands out for its exactitude, precision, and meticulous attention to detail imbued in every product. Rooted in our genetic heritage, nurtured by Italian craftsmanship, and fueled by our ideas, our production beats with a pulsating heart. Yet, our aspirations reach far beyond, embracing the global stage.

A mix of experience and cutting-edge research. We collaborate with established designers and architects but the search for new design horizons is constant, betting on emerging young designers.

CHARM FOR GLO

2025

TECHNICAL INFO - P.227

Charm is the accessory that enhances the beauty and elegance of the Glo collection. Available in mini and micro versions, positioned along the cable to enrich it, its spherical shape amplifies the effect of light, creating plays of reflection that transform the ambience.

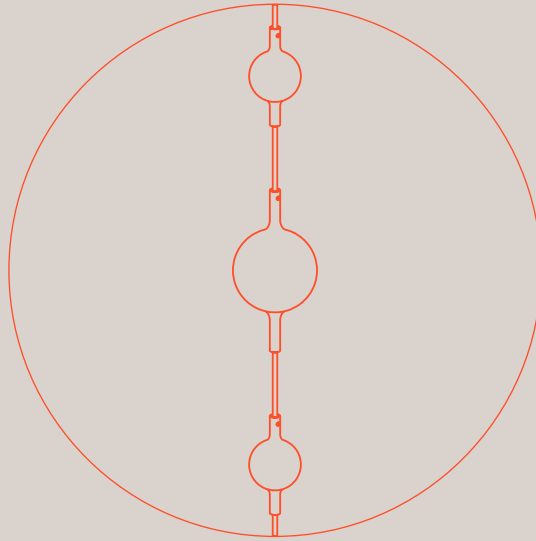

0811-96 CHARM MINI MIRRORING SILVER

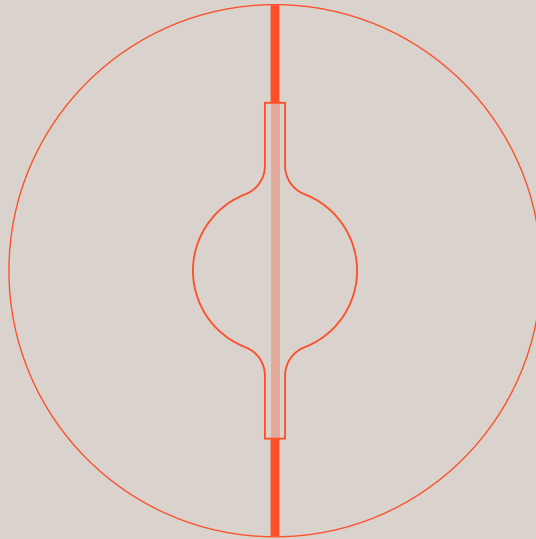

Made of borosilicate glass, Charm reflects and diffuses light in an extraordinary way, intensifying its intensity and infusing the room with a warm, sophisticated luminosity.

The practical fastening system allows one or more elements to be positioned along the entire length of the cable, offering maximum design flexibility. An ideal solution for creating rich, scenographic chandeliers that adapt perfectly to any space.

ICONICA

SARA MORONI

2025

TECHNICAL INFO - P.246

A light product, with a strong sign identity, geometrically constructed around an elementary solid: the cone.

Made entirely of borosilicate glass, at first glance it appears to be an extremely rigorous specular cylinder only to reveal, at a later stage, a small visual surprise: a conical sculpture made of frosted glass.

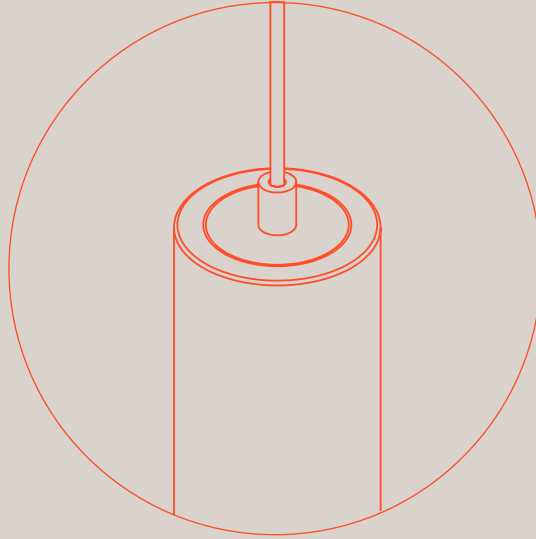

2501-20 TALL SUSP. MIRRORING CHROME – 2501-21 SHORT SUSP. MIRRORING GOLD

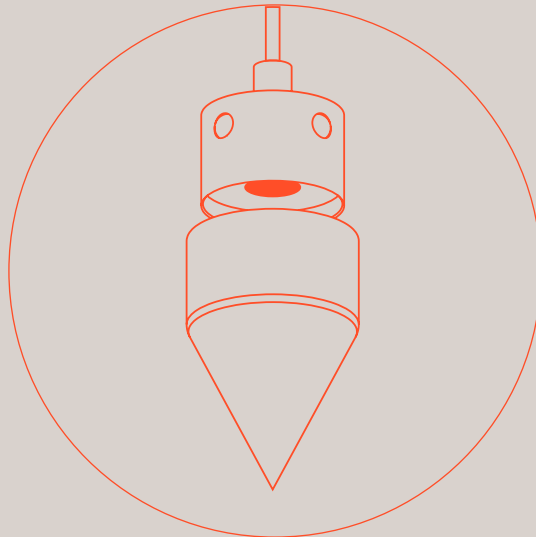

The structure, free of fastening elements, allows for quick removal of the glass components from the LED engine, making both cleaning and component replacement easier.

In this play between light and matter, a surprising optical illusion manifests itself: an almost infinite multiplication of the conical volume within the tube, the perception of which varies depending on the position of the observer.

LIT

UMBERTO ASNAGO

2019

TECHNICAL INFO - P.248

A mutable object that changes with the light. When off, Lit looks like a suspended sculpture, a minimal tube made precious by the reflections that play on the glass. When lit, the lamp reveals a bright, warm and gentle soul.

1912-23 LARGE SUSP. : MIRRORING BRONZE, MIRRORING BLACK

Its uniqueness lies in the frosted and striated inner diffuser, which captures and reflects light in a refined way. Every detail is designed to enhance the interaction between light and materials.

The new finishes, available in bronze and black, add a touch of modernity and versatility.

MISTY

BARTOLI DESIGN & ANDREA CITTERIO

2025

TECHNICAL INFO - P.252

Like a finely tailored garment, Misty's double glass shade elegantly envelops the metallic core, wrapping around it in a harmonious dialogue between glass and aluminum. Lines and materials are balanced in a perfect interplay of geometries, enhancing one another.

2504-22 MICRO SUSP. MIRRORING SILVER

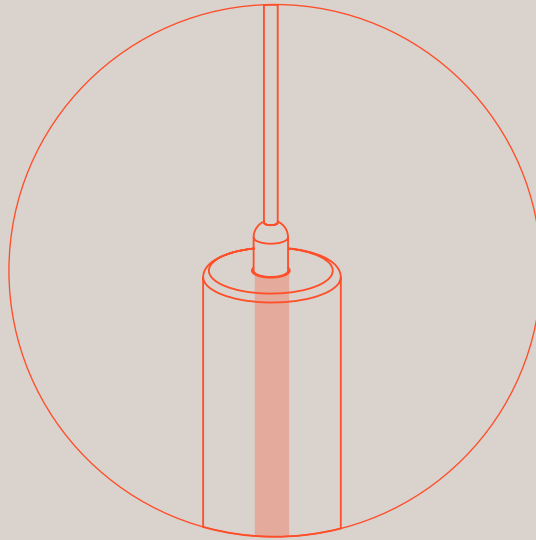

2504-20 MINI SUSP. MIRRORING BLACK

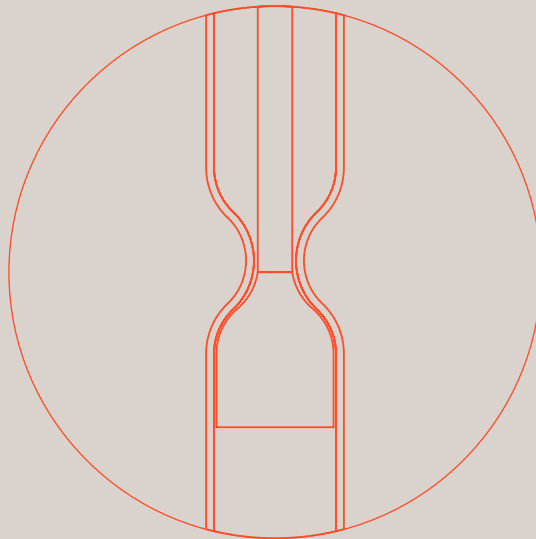

The glass element stands out for its refined metallic finish, available in black, silver, and gold. The effect is more intense at the center, gradually fading towards the edges in a delicate transition.

The curvature of the inner aluminum body is precisely mirrored by the outer glass shell, creating a geometric continuity that allows for the seamless connection of the two components once suspended.

Penta reserves the right to change, better and improve its models without notice, even if these improvements might change the aesthetic appearance of the proposed solutions.

The glass is hand made and mouth-blown by the master glass blower, according to the traditional blowing techniques. Each item is carefully checked, therefore apparent imperfections, such as bubbles or nuances in the glass colour, have to be recognised as merits and signs of the artisan's craftsmanship.

DIMMER

DIMMER: dimmable fixture by means of a switch situated on the lamp structure or on cable (push button, touch, slider control, microswitch)
PHASE CUT: dimmable fixture via remote device suitable to manage TRIAC/IGBT dimmable sources. The minimum load of the dimmer must be verified, compatibility of the dimmer must be verified before installation.

0-10V: dimmable fixture through remote device suitable to manage 0-10V drivers.

PUSH: dimmable fixture through remote button suitable to manage Push drivers.

ATTENTION: fixture Lamps that mount bulbs are phase cut dimmable by means of a remote switch able to manage dimmable sources (**ATTENTION:** retrofit LED bulbs must be dimmable).

NOTE

Most product-integrated LED sources have a Color Rendering Index (CRI) = 90.

Products with integrated LED sources characterized by Correlated Color Temperature (CCT) 2700K can be requested after technical verification and commercial evaluation.

All luminaires can only be sold with the single rosettes shown on the pendants page or with the multiple plates shown on page 277.

The reverse is also true: rosettes and multiple plates cannot be sold separately from pendants.

All fixture are tested and guaranteed in their entirety: pendant + rosette or pendant(s) + multiplate.

Any unauthorized installation will not be deemed compliant.

Sound-absorbing fabrics with sound-absorbing properties improve the acoustic comfort of the room where they are installed.

For multiple installations it is recommended to use bulbs with the same Correlated Color Temperature (CCT).
